

In the event of an early dismissal from school . . .

Parents will receive an automated phone message from GA announcing the specific pick up times by school division. You may also listen for early closing announcements on one of your local radio stations (Greenwich--WGCH—1490 AM; Stamford—WSTC—1400AM; Stamford--WKHL—96.7 White Plains--WFAS—1230AM/103.9FM, Mt. Kisco--WVIP —1310AM; New Rochelle--WVOX—1460 AM and WINS—1010AM) or call the school closing hotline (203.552.4451)

If you also have a daughter in Middle and/or Upper School . . .

For your convenience and also to reduce traffic congestion on campus, we will keep Lower School girls with older siblings so that parents can come to school just once on an early dismissal day at the time of your eldest daughter's dismissal.

You were sent a letter in September explaining this process; however, to summarize here briefly:

- If you have a daughter in **Group I-Group II**, your daughter will be kept in the Lower School Library under the supervision of one of her teachers. Your eldest daughter should pick her little sister up at the **LS Library** at her MS or US dismissal time and then both girls should be picked up by a parent from the **Lower School pagoda**.
- If you have a daughter in **Group III – IV**, your daughter will be kept in the Middle/Upper School Library (lower level) under the supervision of one of her teachers. Your eldest daughter should pick up her little sister at the **Middle/Upper School Library** at her MS or US dismissal time and then both girls should be picked up by a parent from the **Upper School Circle**.
- If you have a daughter in **both Groups I-II and Groups III-IV**, your daughter should be picked up by her MS or US sister from the Lower School Library and proceed to the LS pagoda for pick up. This pertains just to the Brennan, Coen and Viola families.

Parents of Lower School Girls with Middle and/or Upper School Siblings should review these pick up and dismissal locations with their daughters so there will be no confusion.
